Staff Book Review

Book Review by Kathy Grimstein, Branch Head

Garden Spells by Sarah Addison Allen

Set in the present time period

The Waverley sisters live in Bascom, North Carolina in the house where they were raised by their mother and grandmother. Their property contains an enchanted garden, where some naughty apple

trees live and make life difficult for some people. Sisters Claire and Sydney, along with their Aunt Evanelle, all have special gifts. Food tastes better when Claire cooks it, hair looks perfect when Sydney styles it, and special needs are met when Evanelle sees people at just the right time. Sydney's young daughter Bay seems to have inherited special gifts too. The story becomes even more

interesting when two men, their neighbor and a local farmer, enter the picture. Enjoy some magic and fun with this sweet summer book!
